

# Missouri: PUT PREVENTION FIRST!

I am outraged that Missouri legislators failed to promote prevention by voting to allow abstinence-only sex education in schools, ban trained sex educators from public schools, and close abortion clinics.

## Prevention means:

- Access to birth control, including emergency contraception.
- Access to medically accurate, comprehensive sex education.
- Access to affordable family planning and reproductive health care.

Please keep me updated on future pro-choice volunteer opportunities.

- I want my elected officials to vote AGAINST restrictions that harm Missourians and FOR prevention!
- I want to keep informed about my elected officials, candidates and Planned Parenthood Action Fund's One Million Strong campaign.
