

PLANNED PARENTHOOD affiliates in MISSOURI 07-08 VOTE CHART

Below, please find an alphabetical list of all the members of the **Missouri House** with their recorded votes on the 2008 Abortion Restriction Act (HB1831) which died in the Senate, but would have:

- Prevented a woman from getting the required counseling from her own private or preferred physician by mandating she meet with "the physician who is to perform or induce the abortion" at least 24 hours before the procedure to conduct the informed consent process. This is a change from the current law in which "a treating physician" can conduct the informed consent process. It could also add days or weeks to the wait for the procedure if the physician is only scheduled one day per week.
- Created a new crime of 'coercion of an abortion' whether or not the woman actually sought and obtained an abortion.
- Required posting of signs in clinics that carried false promises of state-backed assistance in carrying a child to term and caring for that child once born.

After the House list, please find the alphabetical list of all the members of the **Missouri Senate** and their vote on the 2007 Omnibus Abortion Restriction Act (HB1055) which passed and was signed into law by Governor Blunt. Among the many restrictions in this bill, several were specifically aimed at curbing Planned Parenthood's ability to provide abortion care in our established medical facilities and quality sex education in Missouri public schools. The Senate did not vote on restrictions to abortion or prevention services in 2008.

KEY: AC = anti-choice vote, PC = pro-choice vote, ABSENT = Legislator was not present for the vote
